

DENON

NEW DENON® DBT-1713UD UNIVERSAL BLU-RAY PLAYER OFFERS EXPANDED CONTENT ACCESS

*-- Unique Design Allows for Seamless Interplay with Denon Receivers;
Newly Designed BD Transport, Plus Access to Netflix, YouTube, Vudu and Hulu --*

Mahwah, NJ, May 29, 2012 — Denon Electronics, a premier manufacturer of high-quality audio and home entertainment products, is proud to debut its **DBT-1713UD Universal Blu-Ray Player** (SRP: \$499.99). Scheduled for July delivery, the DBT-1713UD stands out in today's field of high-performance Blu-ray products, representing Denon's clear leadership in innovation, with keen attention to ease-of-use, advanced capabilities and maximum performance. The universal Blu-ray model provides superior playback of virtually all 5-inch silver discs. Denon's newly designed silent loading BD transport mechanism ensures the ultimate quality performance at all times, and the unit's expanded Internet content access capabilities allows users to enjoy video programming from popular sources including Netflix, YouTube, Vudu and Hulu.

Notably, the DBT-1713UD features a leading-edge unified design that allows users to enjoy a simple and straightforward home entertainment experience, with direct and seamless connection to their Denon AV receiver. The remote control is designed to perfectly match Denon's new AV Receivers, enabling users to control their receiver and Blu-ray player with the same remote. Users also enjoy access to the new Denon Remote App for iPhone and iPod touch; allowing control of the DBT-1713UD when connected to a new 13 series Denon network AV receivers.

Adding to its ease of use, the DBT-1713UD features a new front-panel design and Denon's newly developed simplified remote control. Thanks to Denon's unique design, the DBT-1713UD has a startup time of 2.5 seconds and offers a quick response time that is twenty percent faster than previous models.

The DBT-1713UD's rock-solid build features a new shielded mechanism for total reliability, and the fan-less construction ensures a totally quiet and smooth operation. Left- and Right-Analog Audio outputs add to the unit's flexibility, and the supplied HDMI cable helps ensure complete out-of-the-box set-up simplicity

Yoshinori Yamada, Product Manager for Denon core products, noted: "This high-performance unit offers our customers an easy way to add advanced Blu-ray capabilities to their home entertainment system, and it is especially designed for seamless interaction with our AV receivers. Consumers will enjoy the best that this exciting format has to offer, delivering all the audio and video power intended by content providers, as well as a greater level of interactivity and Internet access"

The Denon Remote App is available for free from the App Store on iPhone and iPod touch or at www.itunes.com/appstore/.
