<tr>
<td>Receiver</td>
<td>Sound calibration microphone stand</td>
</tr>
</tbody>
</table>

The supplied Sound calibration microphone stand is convenient for use when performing Speaker Calibration. Using your own tripod or the supplied Sound calibration microphone stand enables settings to be automatically configured to the optimum listening environment, providing exceptionally high performance.

- When connecting this unit to a device that is compatible with the Deep Color, 4K and ARC functions, use an “High Speed HDMI cable with Ethernet” that comes with the HDMI logo.
- These drawings are for illustrative purposes only and may not represent the actual product(s).
Setup
There are three steps to the setup process.

1. Install batteries in the remote control unit
2. Connecting the receiver
3. Follow the On-Screen Setup Assistant

Installing batteries in the remote control unit

R03/AAA batteries
2 Connecting the receiver

- Place the receiver near your TV and connect the power cable.

TV

Receiver

Power cord

Connect to household power outlet (AC 120 V, 60 Hz)
Connect to the network.

Wired LAN
When connecting cables (wired connection), connect a LAN cable between your receiver and your network router.

Wireless LAN
When using a wireless connection (Wi-Fi), rotate the antennas upward.
Turn on the TV.

Select the appropriate HDMI input on your TV.

Connect the receiver to your TV with an HDMI cable.
Turn on the receiver.

- Press \( \text{\textbullet} \) to turn on the receiver.

Verify the connection.

- Verify that you can see this screen on your TV.

When this screen is not displayed, please read operation from the beginning.
3 Follow the On-Screen Setup Assistant

The Setup Assistant will walk you through connecting and configuring your speakers and components to your Denon receiver. Please use the remote control and follow the on-screen instructions.
